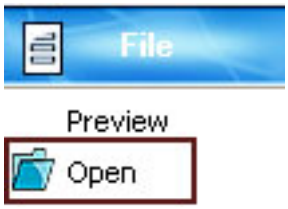
- More....

Decompile FLash

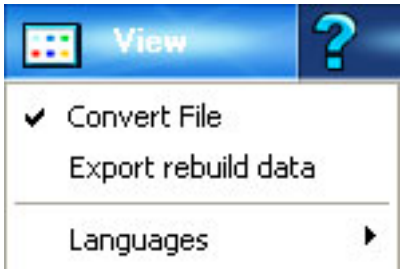
How to convert flash file

Decompile Flash offers the function of conversion between the SWF and EXE format. Learn it step by step:

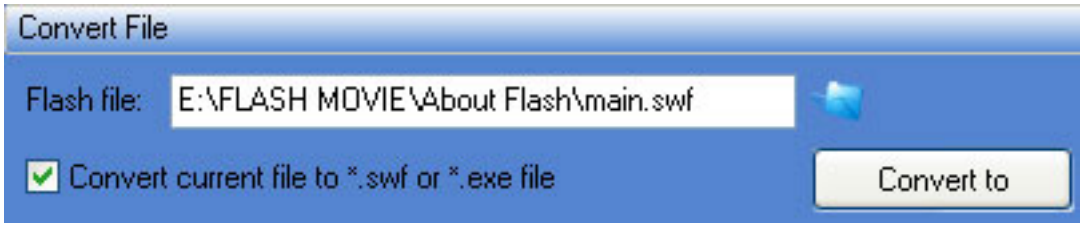
1. Click "open" button to start a flash file.



2. Check the flash file, then click "convert file" button, which is located at "View" tab.

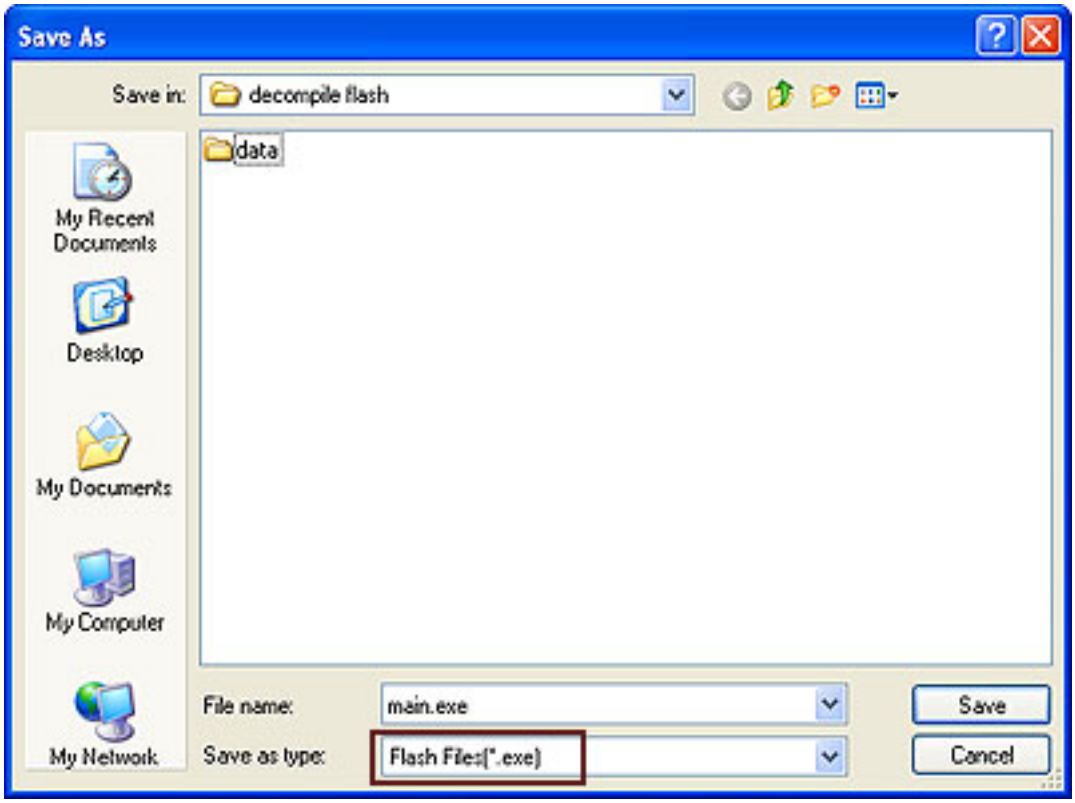


3. Select or write manually the input folder.



4.Click

button and select a path to save the converted SWF/EXE file.



5: Then you can start your conversion.

Decompile FLash

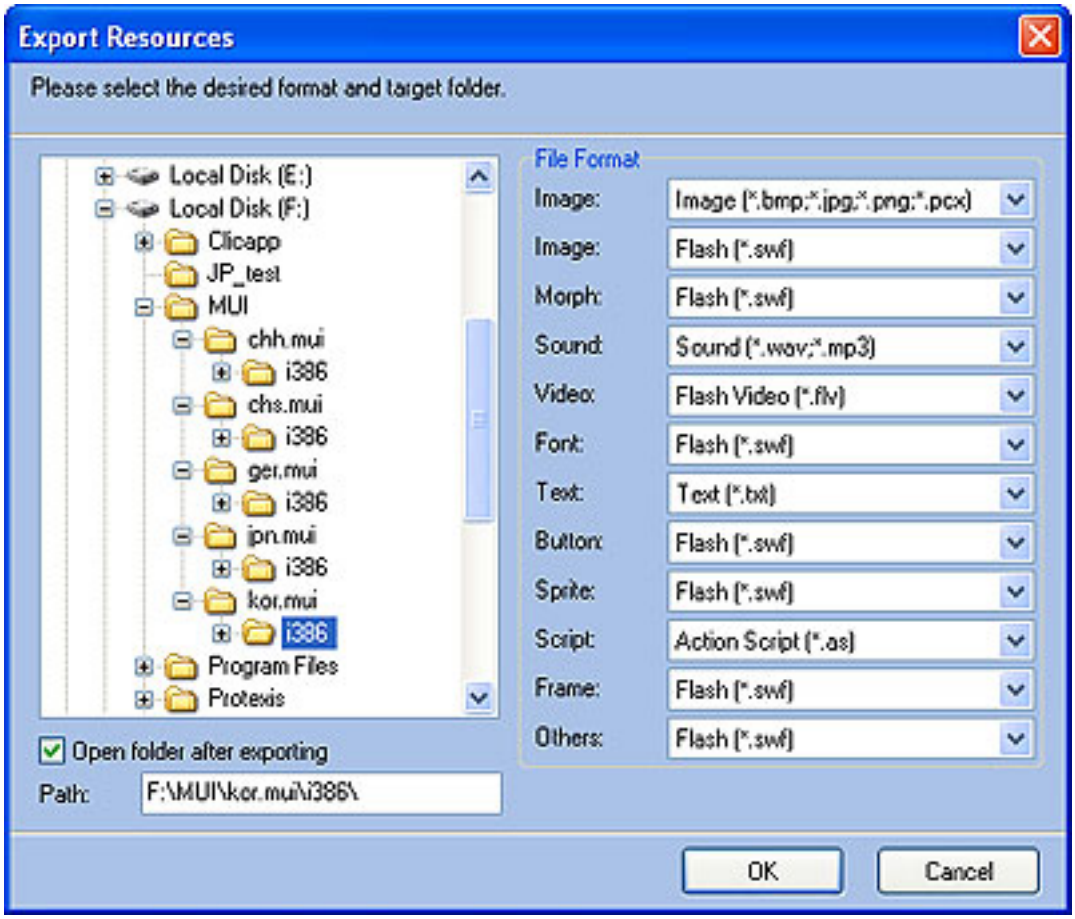
How to Export Resources

Decompile Flash offers the powerful function of export resources. It allows you to export all resources used in SWF file.

1. Open a flash file, all components of the file can be added to resources list.

2. Select the element you want to export in resources list and click the button.

3. Select desired format and target folder to save your resource.



4. Click "OK" to start exporting.

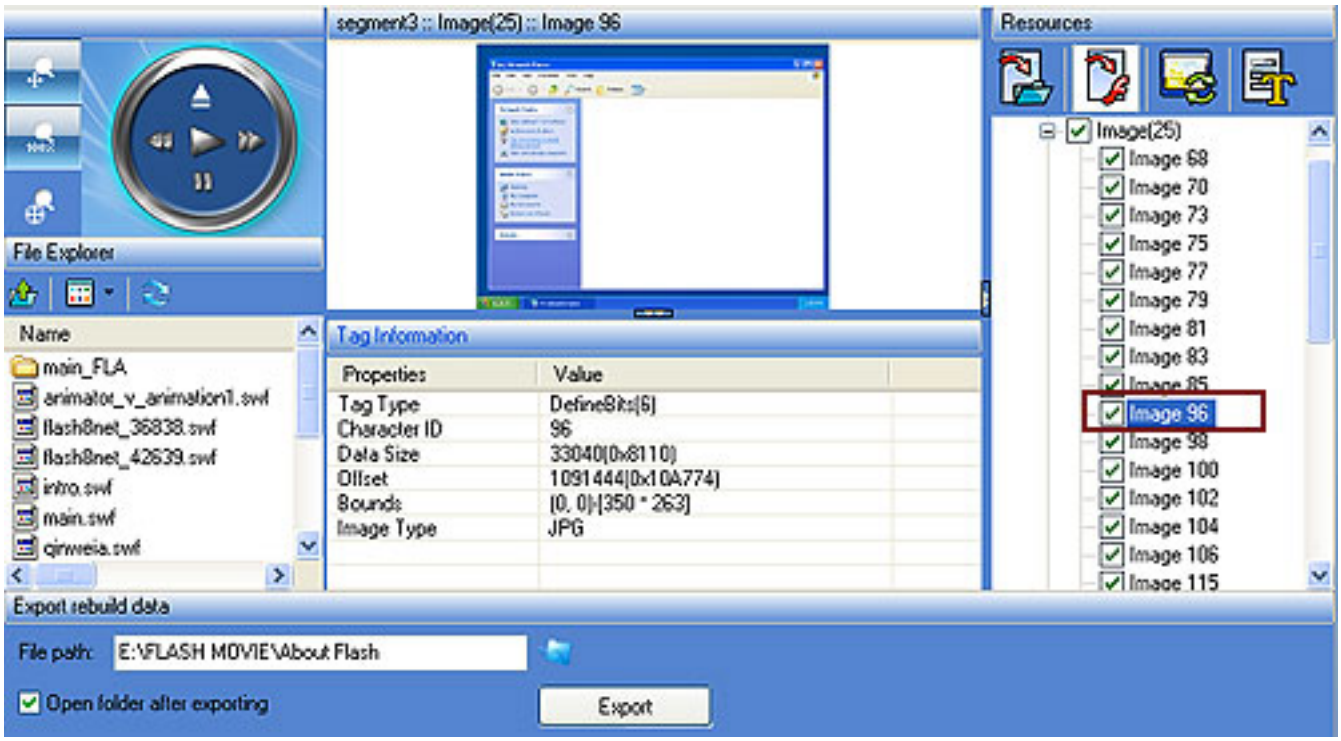
Decompile FLash

How to export FLA data

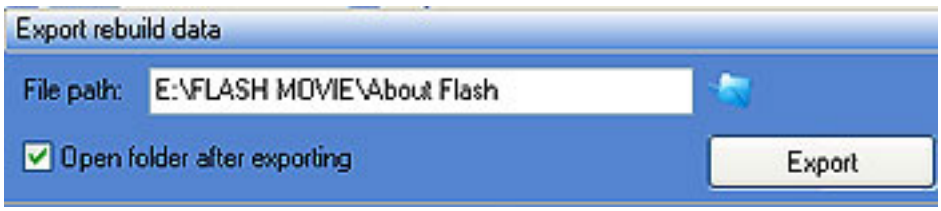
Decompile Flash offers the powerful function of export FLA data to rebuild flash file. Please refer to following steps. **Free version** allows you to export FLA data for limited **3** times.

1. Open a flash file. All components of the file can be added to resources list.

2. Tick the components you want to export in Resources list then click button .



3. Select an output path to save data.



4. Click the

button to start export process. It will save the rebuild files to your selected directory automatically.

You should install "**Macromedia Flash Professional 8**" to open the "**rebuildcomand**" file, and it will generate a FLA file automatically.

FAQs

Q: **What are the recommended operating system configurations for Decompile Flash?**

A: Windows 2000/2003/XP or windows Vista.
Pentium Ⅲ 500 PC or higher.
64MB RAM or more.
Internet connection to register.
Administrative permissions for program installation and registration.

Q: **How do I export an image?**

A: To export an image, please click the [+] in front of Image folder to expand it and display the image files used in this SWF file. Click an image file to show it in preview window. Then tick the image you want by checking the square box in front of it. Last, click the "Export..." button and choose a valid save path. Free Decompile Flash supports exporting the image in jpg or bmp format.

Q: **Can I export all files at once?**

A: Yes, Free Version of Decompile Flash supports exporting all components of a flash file at once. You can select all folders by checking the square box in front of them and right-click "Export Resource" button to get all of them at once. If the file is a little large, it will take more time to export.

Q: **How do I export a shape?**

A: In Resource panel, please click on the [+] in front of Shape folder to expand it and show the contents. Click any shape to view it. Then pick the shape you want to export by checking the square box in front of it. Last, click the "Export..." button and select a directory to save.

Q: **Is there any limitation before registration?**

A: Yes. FLA export Limitation: Decompile Flash Free Version allows you to export FLA data for 3 times.
If you want to get the unlimited function, please upgrade to the full version.

Q: **Where can I get a full version of the software or how can I register the software using the website provided?**

A: If you have installed our free version, you do not need to download anything else. To register the software, you have to click the 'Order Online' button on the Start Window. (the first window you see when you start your free version). You will see a registration window. Please enter the unlock key you have received from us.

Q: **Can I make a payment by check?**

A: Yes, we take payment via a third party. You can use ShareIt or RegNow. They are all highly trusted worldwide. You can choose one you experienced and trusted. ShareIt recommended.

Q: **How to replace images?**

A: 1:Add flash file to resources list.
2:Select the images of flash file you want to edit, and then click Replace image button. A Replace image window will pop up.
3:Browse a image to replace current one by clicking Browse button on the window.
4:Click "Ok" button to confirm the change, all changes will be played in preview window.
In order to achieve the best effect, you'd better select the image of the same size to replace current image.

Q: **Can I get support via e-mail?**

A: Yes, FREE technical support is provided for all registered users of our products by mail. However the e-mail correspondence greatly depends on the mail server settings and even the answered questions might be unavailable to you as an mail server can consider them spam and reject.

Q: **What if I lost my registration password and I want to reinstall Decompile Flash? Can I retrieve it?**

A: If you need to retrieve a lost serial number, please send us your User Name and Email Address in registration to support@decompileflash.com. We will reply within 24 hours.

Q: **More...**

A: If you have a question that was not addressed on this page, please contact our support team: support@decompileflash.com
